

ABOUT THE CLINICIAN

Travis Burns, CJF TE EE FWCF

Travis Burns is an Assistant Professor of Practice in the department of Large Animal Clinical Sciences at the Virginia-Maryland College of Veterinary Medicine at Virginia Tech. Travis is a Certified Journeyman Farrier (CJF) with Therapeutic (TE) and Educator Endorsements (EE) from the American Farrier's Association. He is also one of six Americans to become a Fellow in the Worshipful Company of Farriers (by examination) from the United Kingdom (FWCF). He currently serves as the Chief of Farrier Services in the Equine Podiatry Service of the Veterinary Teaching Hospital.

He attended farrier school at the North Carolina School of Horseshoeing and received a bachelor's degree in animal science from North Carolina State University. Burns worked at North Carolina State University College of Veterinary Medicine before entering into a one-year internship program at Forging Ahead, an elite multi-farrier practice in Northern Virginia. Upon completion of the internship program, he was retained at Forging Ahead as an associate farrier until joining the college in 2010.

Since becoming a faculty member at the VMCVM he has given more than 130 presentations to professional and lay groups nationally and internationally. His clinical and research interests include laminar morphology and hoof crack repair materials.

FEATURED PRODUCTS

Liberty Cu Horseshoe Nails with Copper (Cu) Shield Technology

In addition to all of the same great features of the regular Liberty nail Liberty Cu horseshoe nails include Copper (Cu) Shield Technology. This technology provides much more protection than traditional horseshoe nails. Hoof wall, white line and sole are stronger and healthier when Liberty Cu nails are used on a daily basis. The Copper (Cu) Shield Technology is unique to Kerckhaert and Liberty Cu horseshoe nails. Ask us about the full line of Liberty Cu Nails:

5 City, 5 Slim, 5 and 6 Combo Slim, E-2 Slim through E-7 Slim, LX-50, LX-55, LX-60, LX-65, LX-70, Hybrid in sizes 3, 4, 5 and 6, and Race in sizes 3-1/2, 3-1/2 XL, 4-1/2 and 5.

Kerckhaert Standard Max

The Kerckhaert Standard Max is the answer to increased demand from farriers for a basic shoe with additional thickness. The Standard Max complements the Kerckhaert Standard and Standard Extra. Slightly wider than the Standard, but in a 3/8" thickness, the Standard Max is produced on the same system as the Standard and Extra in order to provide a full toe, nicely balanced for the width of stock. The Standard, Standard Extra and Standard Max is a solid group of shoes that fit the needs of many pleasure, ranch and trail horses. The Max is packed in 10 pair boxes, in sizes 0, 1, 2 and 3.

FootPro™ CS PLUS® Hoof Treatment

The FootPro™ CS PLUS® Hoof Treatment is a clay based hoof treatment with copper sulfate, iodine, venice turpentine and tea tree oil. The product is used to treat hoof separations or surface pockets in the sole and frog where bacteria may be present. Packed in a convenient 10 oz. jar, the material is easily spread and leaves no stain on your fingers.

Bellota Top Level Rasp

The Bellota Top Level is slightly thinner and about 10% wider (approximately 1.95") than traditional Bellota styles. The 8 tooth rasp side pattern has an aggressive cut and an intermediate file side, similar to the Bellota Top Sharp.

Vettec Cartridge Improvements

Check out the new cartridge improvements from Vettec! Vettec tips have 66% less waste than tips used by some competitors.

Vettec 5ml (above) mix tips compared to 15ml tips (below) for 200ml cartridge.
