503-554-0227

18715 NE Hwy 240

Newberg, OR 97132

Do you have a difficult horse to shoe due to lameness or conformational issues?

- Bring your case to the Farrier Forum to have a lively discussion with other farriers and veterinarians!
- You, as farriers, will choose 2 challenging cases to bring to the forum each month.
- A full work up will be done by the veterinarians, including history, gait analysis, blocking and radiographs. Then, the cases will be discussed amongst the group.
- After a plan is made, the farrier bringing the case in will shoe the horse.
